

# Volumetric Cup Filling

*FOR DISPENSING GRANULES, SEEDS, POPCORN, GRAVEL, CANDIES*

**Model VC-4**

All-Fill, Inc., a world leader in Dry Powder Packaging, introduces their new Volumetric Cup Filling machine line. The Model VC-4 and VC-SV-4 Volumetric Cup Filling Machines offer a simple, low-cost solution for specific granular filling applications. These versatile machines fill most dry products including granules, seeds, popcorn, snack foods, gravel, and candies. Available in either "stand-alone" semi-automatic or fully automatic applications - this affordable, reliable product line is the answer to your cup filling needs.

The Model VC-4 is a basic, semi-automatic cup filling machine that is designed for low cycle applications. This is the perfect answer for the small business that is taking that very important step towards automation. Low cost, quick delivery, and extremely easy to operate – the Model VC-4 can provide you with semi-automated cup filling at a "bare-bones" expenditure.

The Model VC-SV-4 incorporates servo technology into the expanded design of the VC-4. A "Touch-Screen" Operator Interface, multiple recipe setup, and filling weight feedback capability make the Model VC-SV-4 the obvious choice for your most demanding cup filling applications.

## Model VC-4 Features:

- **Standard** - 2 Cubic Ft. Hopper
- Unique Versatility - For Filling Granules, Seeds, Popcorn, and Snack Foods
- "Tool-less" cleaning and changeover parts removal
- Stainless steel upper cup pocket design
- UHMW rotating disk, and UHMW lower cup pocket design
- Rugged, Durable Construction
- Same dependable ALL-FILL service and support
- "Back-to-Simplicity" Innovative Design

## In addition to the above items, the Model VC-SV-4 Features:

- "Off-the-Shelf" PLC Control and Operator Interface
- DC Motor for automatic height adjustment
- Servo-driven machine - for ultimate filling accuracy
- Multiple brush product scraping system
- Gearhead design supports minimal mechanical wear
- Adjustable Fill Quantities
- Optional feedback feature - from a checkweigher or scale
- Optional Dust Collection Feature
