

Filler/Checkweigher Combo **SHA-CW-600**

FULLY AUTOMATIC FILLING AND CHECKWEIGHING

The All-Fill Model SHA-CW-600 "Combo" offering is a single, integrated auger filler and inline checkweigher for fully automatic container movement, positioning, filling, weighing and rejection for a wide variety of powder, granular, and liquid products. Consisting of a standard 8' chain conveyor, fill head and Alpha Checkweigher, the Combo provides a centralized, economical solution to packaging needs for a variety of industries.

SINGLE, INTEGRATED "TOUCH SCREEN" CONTROLS

All filling and weighing functions are selected and controlled from a single, easy to use Touch Screen control panel. Simplified menu selections and icon-based screen graphics are used to specify all major machine function and weighing parameters for up to 50 different products, containers, weights, and applications. The standard offering is further complimented by a selection of accessories and options to tailor the machine to specific operating requirements and conditions, including servo fill motors, container lifting and vibration, 3 or 5 zone checkweighing operation, and automatic rejection of out of tolerance containers.
